This is a rare set of 18" Brabus Monoblock IV aluminum alloy wheels (18 x 8.5 ET35) suitable for Mercedes Benz. Bolt pattern is 5x112 so they'll fit some VW and Audi models if you have the proper hub-centric rings.

The wheels are straight with small dings but nothing too severe. They're a machined (diamond cut) finish with clearcoat and there are some chips and nicks in the clearcoat. No cracks, bends, or prior repairs. Mercedes Benz snap-in center caps aren't pictured but will be included with the sale.

I'm asking \$800 for the set. Please email with your phone number if you're interested. Emails asking whether "the item" is still available will be ignored. If this ad is still up, they're available.
